

MIRASYS new products – Mirasys Touch and N500

Mirasys Ltd introduces two IP recorders for small businesses: Mirasys Touch, our first recorder with a touchscreen interface, and N500, a new entry level model. Both recorders support up to 4 or 8 IP cameras.

Mirasys Touch

The compact Mirasys Touch is completely integrated into a touchscreen LCD monitor. The recorder is one of the smallest ones on the market: sleek and stylish, it can be mounted on a wall or placed on a desk like any monitor, and its basic use does not require a mouse or keyboard.

- Has the full functionality of Mirasys NVR Enterprise surveillance software
- Centralised management enables remote control monitoring
- Fast and easy to install
- The system is scalable and upgrades can be managed flexibly
- Compatible with Mirasys intelligent Video Content Analysis (VCA)
- Sleek design; can be placed visibly on a wall or counter

Sense of Style. All-in-One.

Why Mirasys surveillance software?

- Scales easily for different sized businesses
- Supports all camera resolutions
- Seamless integration with other systems
- Rich set of features and effective search tools
- Offers the widest connectivity to different IP camera models
